

Merry Christmas from Shayamanzi

The name KwaZulu-Natal is derived from "the place of the Zulu" and "Natal" for Christmas, as the region was named on that day long ago by the Portuguese discoverer, Vasco da Gama in 1497. It is only fitting then that you should choose to celebrate the festive season with the Shayamanzi Houseboats, where all members of your family will have a ball. It's not just the unique setting that is sure to make your Christmas celebration; with contemporary facilities, fine cuisine, tiger fishing and wildlife viewing on offer, and completely professional staff to attend to your every need, the Shayamanzi's truly have all the ingredients for one fabulous holiday. A safari cruise is the perfect way to relax with that special someone, or with the whole family gang. You can focus on enjoying each other's company—minus the cooking, clean-up and stress!
